Promethean Analytics is looking for an EPM Oracle Consulting Professional who can work within a growing, team-based organization and help craft the vision of:

- Building client relationships
- Enhancing business development delivery processes
- Interfacing with experienced professionals in a solution-based environment

ABOUT PROMETHEAN ANALYTICS

Founded in 2015 by a core team of EPM/BI professionals, one of our key values has been: **Client, Company, Self** – A Customer centric attitude whether we are on a project, in sales meetings, doing webinars or speaking at events.

We build EPM systems and applications with our Client's needs and priorities first in mind. The traditional consulting approaches to delivering EPM solutions does not work well in modern Finance. We believe in **deeper partnerships, faster & more agile methods, a 360-degree view of a business challenge and a highly committed effort** to extract more value from improved business applications and processes.
